

undertaken by the Government of the PRC pursuant to this Agreement relevant to the question of whether firms in the underlying investigation would be entitled to separate rates, should the investigation be resumed for any reason.

D. The English language version of this Agreement shall be controlling.

E. For all purposes hereunder, the Department and the signatory Government shall be represented by, and all communications and notices shall be given and addressed to:

Department of Commerce

U.S. Department of Commerce,
Assistant Secretary, for Import
Administration, International Trade
Administration, Washington, D.C.
20230

Government of the PRC

Ministry of Foreign Trade and Economic
Cooperation, Deputy Director General,
2, Dong Chang An Street, Beijing, Post
Code 100731, People's Republic of
China

XIV. Effective Date

The effective date of this Agreement suspending the antidumping investigation on honey from the PRC, August 2, 1995.

Signed on this second day of August, 1995.

For the U.S. Department of Commerce.

Susan G. Esserman,

*Assistant Secretary for Import
Administration.*

MOFTEC for the Government of the
People's Republic of China.

Wang Tian Ming,

*Minister-Councillor, Embassy of the People's
Republic of China in the United States.*

Appendix

In accordance with the established format, the Government of the PRC shall collect and provide to the Department all information necessary to ensure compliance with this Agreement. This information will be provided to the Department on a semi-annual basis, or upon request.

The Government of the PRC will collect and maintain sales data to the United States, in the home market, and to countries other than the United States, on a continuous basis and provide the prescribed information to the Department.

The Government of the PRC will provide a narrative explanation to substantiate all data collected in accordance with the following formats.

Report of Inventories

Report, by location, the inventories held by the PRC in the United States

and imported into the United States between the period beginning December 20, 1994, through the effective date of the Agreement.

1. Quantity: Indicate original units of measure and in pounds.
2. Location: Identify where the inventory is currently being held. Provide the name and address for the location.
3. Titled Party: Name and address of party who legally has title to the merchandise.
4. Quota Certificate Number: Indicate the number(s) relating to each entry now being held in inventory.
5. Certificate of Origin Number(s): Indicate the number(s) relating to each sale or entry.
6. Date of Original Export: Date the quota certificate/certificate of origin is issued.
7. Date of Entry: Date the merchandise entered the United States or the date book transfer took place.
8. Original Importer: Name and address.
9. Original Exporter: Name and address.
10. Complete Description of Merchandise: Include lot numbers and other available information.

United States Sales

MOFTEC will provide all Quota Certificates, which shall contain the following information with the exception of item #9, date of entry, and item #13, final destination.

1. Quota Certificate/Certificate of Origin Number(s): Indicate the number(s) relating to each sale and/or entry.
2. Complete Description of Merchandise: Include lot numbers and other available information including the HTS category to the 10 digit level.
3. Quantity: Indicate in original units of measure and in pounds.
4. Total Sales Value: Indicate currency used.
5. Unit Price: Indicate currency used.
6. Date of Sale: The date all terms of order are confirmed.
7. Sales Order Number(s): Indicate the number(s) relating to each sale and/or entry.
8. Date of Export: Date the quota certificate is issued.
9. Date of Entry: Date the merchandise entered the United States or the date book transfer took place.
10. Importer of Record: Name and address.
11. Customer: Name and address of the first party purchasing from the PRC exporter.
12. Customer Relationship: Indicate whether the customer is related or unrelated to the PRC exporter.

13. Final Destination: Name and address of the end-user for consumption in the United States.

14. Quota Allocated to Exporter: Indicate the total amount of quota allocated to the individual exporter during the Relevant Period.

15. Quota Remaining: Indicate the remaining quota available to the individual exporter during the Relevant Period.

16. Other: i.e., used as collateral, will be re-exported, etc.

Sales Other Than United States

Pursuant to Section VIII, paragraph A, the Government of the PRC will provide country-specific sales volume and value information for all sales of subject merchandise to third countries.

1. Quota Certificate/Certificate of Origin Number(s): Indicate the number(s) relating to each sale and/or entry.
2. Quantity: Indicate in original units of measure sold and/or entered and in metric tons.
3. Date of Sale: The date all terms of order are confirmed.
4. Sales Order Number(s): Indicate the number(s) relating to each sale and/or entry.
5. Date of Export: Date the quota certificate is issued.
6. Date of Entry: Date the merchandise entered the United States or the date a book transfer took place.
7. Importer of Record: Name and address.
8. Customer: Name and address of the first party purchasing from the PRC exporter.
9. Customer Relationship: Indicate whether the customer is related or unrelated.
10. Final Destination: Name and address of the end-user for consumption.
11. Other: i.e., used as collateral, will be re-exported, etc.

Light-Scattering Instruments and Parts Thereof From Japan; Preliminary Results of Antidumping Duty Administrative Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

ACTION: Notice of preliminary results of antidumping duty administrative review.

SUMMARY: In response to a request by the petitioner, Wyatt Technology Corporation (Wyatt), the Department of

Commerce (the Department) is conducting the fourth administrative review of the antidumping duty order on light-scattering instruments (LSIs) and parts thereof from Japan. The review covers one manufacturer/exporter, Otsuka Electronics Co., Ltd. (Otsuka), and entries of the subject merchandise to the United States during the period November 1, 1993 through October 31, 1994.

We have preliminarily determined, using the best information available (BIA), that dumping margins exist with respect to Otsuka. Interested parties are invited to comment on these preliminary results.

EFFECTIVE DATE: August 16, 1995.

FOR FURTHER INFORMATION CONTACT: G. Leon McNeill or Maureen Flannery, Office of Antidumping Compliance, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue NW., Washington, D.C. 20230; telephone: (202) 482-4733.

SUPPLEMENTARY INFORMATION:

Background

On November 19, 1990, the Department published in the **Federal Register** an antidumping duty order on LSIs and parts thereof from Japan (55 FR 48144). On November 2, 1994, the petitioner, Wyatt, requested that we conduct an administrative review in accordance with section 353.22(a) of the Department's regulations (19 CFR 353.22(a)). We initiated the review covering the period November 1, 1993 through October 31, 1994 (59 FR 64650, December 15, 1994). The Department is now conducting the review in accordance with section 751 of the Tariff Act of 1930, as amended (the Act).

Applicable Statutes and Regulations

Unless otherwise stated, all citations to the statute and to the Department's regulations are references to the provisions as they existed on December 31, 1994.

Scope of the Review

This review covers imports of LSIs and parts thereof from Japan. The Department defines such merchandise as LSIs and the parts thereof, specified below, that have classical measurement capabilities, whether or not also capable of dynamic measurement. Classical measurement (also known as static measurement) capability usually means the ability to measure absolutely (*i.e.*, without reference to molecular standards) the weight and size of macromolecules and submicron particles in solution, as well as certain

molecular interaction parameters, such as the so-called second viral coefficient. (An instrument that uses single-angle instead of multi-angle measurement can only measure molecular weight and the second viral coefficient.) Dynamic measurement (also known as quasi-elastic measurement) capability refers to the ability to measure the diffusion coefficient of molecules or particles in suspension and deduce therefrom features of their size and size distribution. LSIs subject to this review employ laser light and may use either a single-angle or multi-angle technique.

The following parts are included in the scope of this administrative review when they are manufactured according to specifications and operational requirements for use only in an LSI as defined in the preceding paragraph: scanning photomultiplier assemblies, immersion baths (to provide temperature stability and/or refractive index matching), sample-containing structures, electronic signal-processing boards, molecular characterization software, preamplifier/discriminator circuitry, and optical benches. LSIs subject to this review may be sold inclusive or exclusive of accessories such as personal computers, cathode ray tube displays, software, or printers. LSIs are currently classifiable under Harmonized Tariff Schedule (HTS) subheading 9027.30.40. LSI parts are currently classifiable under HTS subheading 9027.90.40. HTS subheadings are provided for convenience and U.S. Customs Service purposes. The written product description remains dispositive. Different items with the same name as subject parts may enter under subheading 9027.90.40. To avoid the unintended suspension of liquidation of non-subject parts, those items entered under subheading 9027.90.40 and generally known as scanning photomultiplier assemblies, immersion baths, sample-containing structures, electronic signal-processing boards, molecular characterization software, preamplifier/discriminator circuitry, and optical benches must be accompanied by an importer's declaration to the Customs Service stating that they are not manufactured for use in a subject LSI.

This review covers entries of the subject merchandise manufactured by Otsuka and entered during the period November 1, 1993 through October 31, 1994.

Preliminary Results of Review

Otsuka has not responded to the Department's questionnaire, sent on March 27, 1995. The Department,

therefore, determines that Otsuka is an uncooperative respondent. As a result, in accordance with section 776(c) of the Act, we have determined that the use of BIA is appropriate. Whenever, as here, a company refuses to cooperate with the Department, or otherwise significantly impedes an antidumping proceeding, we use as BIA the higher of (1) the highest of the rates found for any firm for the same class or kind of merchandise in the less-than-fair-value (LTFV) investigation or prior administrative reviews; or (2) the highest rate found in this review for any firm for the same class or kind of merchandise. (*See Antifriction Bearings from France, et. al; Final Results of Review*, 58 FR 39729 (July 26, 1993).) As BIA, we assigned the rate of 129.71 percent, which is the highest rate for any company from both the prior review and the LTFV investigation. Consequently, we preliminarily determine that the following dumping margin exists for the period November 1, 1993 through October 31, 1994:

Manufacturer/exporter	Margin (percent)
Otsuka Electronics Co., Ltd	129.71

Any interested party may request a hearing within 10 days of publication of this notice. Any hearing will be held 44 days after the date of publication of this notice, or the first workday thereafter. Interested parties may submit case briefs within 30 days of the publication date of this notice. Rebuttal briefs, limited to issues raised in the case briefs, may be filed not later than 37 days after the date of publication. The Department will publish a notice of the final results of this administrative review, which will include the result of its analysis of issues raised in any such case briefs or hearing.

The following deposit requirements shall be effective for all shipments of the subject merchandise entered, or withdrawn from warehouse, for consumption, on or after the publication date of the final results of this administrative review, as provided by section 751(a)(1) of the Act: (1) The cash deposit rate for the reviewed company shall be the rate established in the final results of this review; (2) for previously reviewed or investigated companies not listed above, the cash deposit rate will continue to be the company-specific rate published for the most recent period; (3) if the exporter is not a firm covered in this review, a prior review, or the original LTFV investigation, but the manufacturer is, the cash deposit rate

shall be the rate established for the most recent period for the manufacturer of the merchandise; and (4) if neither the exporter nor the manufacturer is a firm covered in this or any previous review by the Department, the cash deposit rate will be 129.71 percent, the all other rate established in the LTFV investigation.

These deposit requirements, when imposed, shall remain in effect until publication of the final results of the next administrative review.

This notice serves as a preliminary reminder to importers of their responsibility under 19 CFR 353.26 to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Secretary's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

This administrative review and notice are in accordance with section 751(a)(1) of the Act (19 U.S.C. 1675(a)(1)) and 19 CFR 353.22.

Dated: August 4, 1995.

Susan G. Esserman,
Assistant Secretary for Import Administration.

Stainless Steel Hollow Products From Sweden; Termination of Antidumping Duty Administrative Reviews, Final Results of Changed Circumstances Antidumping Duty Administrative Review, and Revocation In Part of Antidumping Duty Order

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

ACTION: Notice of termination of antidumping duty administrative reviews, final results of changed circumstances antidumping duty administrative review, and revocation in part of antidumping duty order.

SUMMARY: On December 3, 1987, the Department of Commerce (the Department) published an antidumping duty order on seamless stainless steel hollow products (SSHP) from Sweden. On November 5, 1992, the Department published an amended antidumping duty order to include welded SSHP in the scope of the order. On January 23, 1992 and on February 23, 1993, the Department initiated administrative reviews of the antidumping duty order

with regard to seamless SSHP, covering the periods December 1, 1990 through November 30, 1991, and December 1, 1991 through November 30, 1992, respectively. We are now revoking the order in part, with regard to seamless SSHP, based on the fact that this portion of the order is no longer of interest to domestic parties. Accordingly, we are now terminating these reviews.

EFFECTIVE DATE: August 16, 1995.

FOR FURTHER INFORMATION CONTACT: Amy S. Wei or Zev Primor, Office of Antidumping Compliance, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW, Washington, DC 20230; telephone (202) 482-5253.

SUPPLEMENTARY INFORMATION:

Background

On December 3, 1987, the Department published an antidumping duty order on seamless SSHP from Sweden (52 FR 45985). On December 13, 1991, Sandvik AB, AB Sandvik Steel, and the Sandvik Steel Company (collectively, Sandvik), the respondent, requested the fourth administrative review of the antidumping duty order, covering the period December 1, 1990 through November 30, 1991. On January 23, 1992, the Department initiated the administrative review with regard to seamless SSHP (57 FR 2704). On November 5, 1992, the Department published an amended antidumping duty order to include welded SSHP in the scope of the order (57 FR 52761). On December 4, 1992, Sandvik requested the fifth administrative review of the antidumping duty order, covering the period December 1, 1991 through November 30, 1992. On February 23, 1993, the Department initiated this administrative review with regard to seamless SSHP (58 FR 11026). On February 9, 1995, AL Tech Specialty Steel Corporation (AL Tech) and the United Steelworkers of America (USWA), the only petitioners in this proceeding who are involved in the production of seamless SSHP, submitted a request for a changed circumstances administrative review and partial revocation of the order with regard to seamless SSHP. In addition, AL Tech and USWA requested that the partial revocation be effective retroactive to December 1, 1990, thereby terminating the currently pending fourth and fifth administrative reviews. AL Tech and USWA made this request based on the fact that the order with regard to seamless SSHP is no longer of interest to the petitioners.

We preliminarily determined that AL Tech's and USWA's affirmative statement of no interest constitutes good cause for conducting a changed circumstances review. Consequently, on July 24, 1995, the Department published a notice of initiation and preliminary results of changed circumstances antidumping duty administrative review to determine whether to revoke the order in part (60 FR 37876). We gave interested parties an opportunity to comment on the preliminary results of this changed circumstances review. We received no comments.

Scope of Review

The merchandise covered by this changed circumstances review are seamless stainless steel hollow products including pipes, tubes, hollow bars, and blanks of circular cross section, containing over 11.5 percent chromium by weight. This merchandise is currently classified under subheadings 7304.41.00 and 7304.49.00 of the Harmonized Tariff Schedule (HTS). The HTS numbers are provided for convenience and Customs purposes. The written description remains dispositive.

This changed circumstances administrative review covers all manufacturers/exporters of seamless SSHP from Sweden.

Final Results of Review; Partial Revocation of Antidumping Duty Order; Termination of Antidumping Duty Administrative Reviews

The affirmative statement of no interest by AL Tech and USWA constitutes changed circumstances sufficient to warrant partial revocation of the order. Therefore, the Department is partially revoking the order on SSHP from Sweden, with regard to seamless SSHP, in accordance with sections 751(b) and (d) and 782(h) of the Tariff Act of 1930, as amended (the Act) and 19 CFR 353.25(d)(1). This partial revocation applies to all entries of the subject merchandise entered, or withdrawn from warehouse, for consumption on or after December 1, 1990. Accordingly, the Department is terminating the fourth and fifth reviews.

The Department will instruct the U.S. Customs Service (Customs) to proceed with liquidation, without regard to antidumping duties, of all unliquidated entries of seamless SSHP entered, or withdrawn from warehouse, for consumption on or after December 1, 1990. The Department will further instruct Customs to refund with interest any estimated duties collected with respect to unliquidated entries of seamless SSHP entered, or withdrawn
